

CoVID-19 Surveillance Testing

Keep Students and Teachers Thriving in the Classroom

What is Surveillance Testing?

- Routine group testing of students and teachers as they arrive at school
- Highly sensitive test can alert you before symptoms appear
- Reduce anxiety, disruption and cost associated with CoVID-19
- Helping everyone get a little closer to “normal”

Pain-Free Saliva Samples

- So simple even a child can do it
- On-site, self-collection in under a minute avoids disruptions and delays
- Sample collection services available so you don't need to involve staff

If CoVID-19 Detected

- Stop group interactions
- Perform individual diagnostic testing
- Sanitize area

Results In hours, not days

- Rapid results are key to effective management
- Samples processed locally so you get results in under 4 hours

COVID-19 Surveillance Test Results		
Well	Sample	Result
A4	Mrs. Smith's Cohort	⊖ Not Detected
A5	Mr. Nelson's Cohort	⊕ Positive
A6	Mrs. Stacy's Cohort	⊖ Not Detected
A7	Mrs. Marcia Cohort	⊖ Not Detected

Good for Education

- Results are clear and actionable
- Combining samples minimizes costs, about \$20/person.
- Retain teachers and staff because they feel safer at work
- Keeps students in the classroom and learning
